Sprint Tasks

Within sprint 3, the main goal is to finish the user story that was started on the previous sprint. Last sprint, 4 tasks were completed, so the 8 other tasks needs to be completed. Along with completing the previous tasks of the user story, another task were added for testing purposes.

Tasks From Previous Sprint :

The user story is separated into 12 tasks.
First two task is to create the helpers that will assist (and will be dependent on) in the creation of the forms. It is separated into the front end that will help create elements in HTML and JS. The other task is for backend, creating the POST request and SQL query.

For tasks 3 to 8, it will be adding the fields of every form into the system. This could be done easily because there is a aggregate form that contains all unique fields.
Tasks 7 to 10 will be responsible for creating the actual web form that the user uses to fill the forms.

Forms 1-4:
- Client Profile
- Needs Assessment and Referrals Service
- Community Connections
- Information and Orientation

Forms 5-8:
- Employment Related Services
- Language Training - Client Enrolment
- Language Training - Client Exit
- Language Training - Course Setup

New Task Within Current Sprint :

Ability to test the forms automatically with an option that the user can test. The testing is a combination of unit testing and acceptance testing since the interface is mainly GUI based, so the tests are combined together.

Task breakdown

	User Story	Task	Dependencies	Task #	Story Points
1	As William, a TEQ Customer Service employee, I want to be able to submit different forms depending on the client and be able to fill in missing information in the forms about them.	Insert fields of 1 to 103 on backend	T1	3	3
		Insert fields of 1 to 103 on client side	T2	4	3
		Insert fields of 207 to 309 on backend	T1	7	3
		Insert fields of 207 to 309 on client side	T2	8	3
		Complete Forms 1-4 web pages	T2	9	2
		Complete Forms 1-4 back end	T1	10	2
		Complete Forms 5-8 web pages	T2	11	2
		Complete Forms 5-8 back end	T1	12	2
		Complete option for testing a form automatically	T1 - T12	13	3
